Heat Treat Attendant Off Shift

Salary: \$26.45-\$27.05

Who we are:

Magellan Aerospace is a global, integrated company that provides complex assemblies and systems solutions to aircraft and engine manufacturers, and defense and space agencies worldwide. At Magellan we have over 80 years of collective knowledge and experience in the aerospace industry and believe one truth: People create value.

Magellan Aerospace Haley division is nestled in the Ottawa Valley one hour north of the Capital, Ottawa, Ontario [Haley Ontario - Bing Maps](#). We live in an Outdoor playground where there is no shortage of FUN for the Outdoor Enthusiast such as hiking, kayaking, canoeing, snowshoeing, skiing, snowmobiling, beaches and world class whitewater. The Ottawa Valley is truly an amazing area to live and enjoy nature!

Why Magellan?

Does working with a Team in an environment where you contribute to the successes of an organization entice you? Magellan Aerospace Haley Division is looking for new talent to join our growing team here in the Ottawa Valley.

What we offer

- Attractive Benefits package including Long Term and Short-Term Disability, Dental, Vision and Drug Coverage
- Company Pension Plan
- Positive Work-Life Balance
- Opportunities for Professional Growth
- Employee Assistance Program

Key Responsibilities

- Operate, load, and monitor **heat treat furnaces** per specifications and metallurgical procedures.
- Verify **casting details**, including melt and part numbers, test bar requirements, and heat treat conditions.
- Safely use **forklifts, hoists, or cranes** to load/unload furnace materials and fixtures.
- Maintain accurate records on **log sheets and charts** for process tracking.
- Monitor and control **compressors, fans**, and furnace gas content using CO₂ sampling equipment.

- Inspect and maintain **racks, fixtures, and castings** for alignment, straightness, and overall quality using templates.
- Conduct routine **CO₂ and boron trifluoride line checks**, documenting inspection results.
- Perform **security checks** throughout the facility and assist with fire response if necessary.
- Adhere to **safety protocols**, wear appropriate PPE, and perform additional duties as assigned.

Education Requirements:

- Candidates must possess a High School Diploma/GED Certificate **or** equivalent training and experience.

Experience, Knowledge and Skills Required:

- Familiarity with **high-temperature industrial environments** and metal thermal processing techniques.
- Valid **forklift license** or experience operating forklifts is considered an asset.
- Background in **monitoring furnaces and heat treatment systems** is advantageous.

Security Requirements:

- We conduct a criminal Record Check on all new hires
- We conduct a Government Controlled Goods Program (CGP) Check on all new hires; must be able to give 3 references to help verify your identity

Work Conditions:

- Must be available to work **rotating 12-hour Continental shifts** on a weekly basis, including days, nights, and weekends as scheduled.
- Required to wear **CSA-approved steel-toed footwear** and **fire-retardant clothing** at all times while on the production floor.
- Work is performed in a **hot, industrial environment** with exposure to high temperatures, molten metals, and occasional fumes or airborne particles
- Employees must follow strict **safety protocols** and utilize personal protective equipment (PPE) as directed.
- Physical demands include **standing for extended periods, frequent walking, bending, and lifting** of materials weighing up to 50 lbs.
- Regular interaction with team members and supervisors is expected to ensure safe, efficient operations.

Magellan Aerospace respects the privacy and confidentiality of personal information provided by candidates and shall not disclose to any external parties unless legislated.
