Quality Technician- 2025

Who we are:

Magellan Aerospace is a global, integrated company that provides complex assemblies and systems solutions to aircraft and engine manufacturers, and defense and space agencies worldwide. At Magellan we have over 80 years of collective knowledge and experience in the aerospace industry and believe one truth: People create value.

Magellan Aerospace Haley division is nestled in the Ottawa Valley one hour north of the Capital, Ottawa, Ontario [Haley Ontario - Bing Maps](#). We live in an Outdoor playground where there is no shortage of FUN for the Outdoor Enthusiast such as hiking, kayaking, canoeing, snowshoeing, skiing, snowmobiling, beaches and world class whitewater. The Ottawa Valley is truly an amazing area to live and enjoy nature!

Why Magellan?

Does working with a Team in an environment where you contribute to the successes of an organization entice you? Magellan Aerospace Haley Division is looking for new talent to join our growing team here in the Ottawa Valley.

What we offer

- Attractive Benefits package including Long Term and Short-Term Disability, Dental, Vision and Drug Coverage
- Company Pension Plan
- Positive Work-Life Balance
- Opportunities for Professional Growth
- Employee Assistance Program

Key Responsibilities

The Quality Technician (QT) is responsible for the accurate communication of quality requirements for designated castings, and revisions to work instructions when requirements are updated.

Magellan Aerospace, Haley

Phone: 613-432-8841 Fax: 613-432-0743
634 Magnesium Road, Haley, ON, Canada, K0J 1Y0

The QT is the primary contact to the customer for all communications related to their designated castings. Access to all customer portals and DQR certification for all customers is required:

- Leads Root Cause and Corrective Action (RCCA) activities related to customer escapes, and must authorize RTV activities
- Responsible for preparing and submitting First Article Inspection (FAI) packages to their designated customers. Monitoring and relaying the approval status will be required
- Preparing and submitting Production Part Approval Process (PPAP) packages for their designated castings. Monitoring and relaying the approval status will be required
- Approving all internal engineering changes for designated castings and communicates with the customer for authorization (when required)
- Participating in Purchase Order reviews for their designated castings, and Specification review as directed for specifications related to their designated castings
- Preparing and modifying shop floor techniques for their designated parts is the responsibility of the QT and the Product Technician (PT). The QT is responsible for inspection/processing techniques, whereas the PT is responsible for all "How-To"/foundry techniques
- Reviewing all changes/suggestions for improvement from their corresponding PT to ensure that no specification violation will occur and/or to determine if customer approval will be required, and seek the necessary approvals
- Keeping up to date a Master Status for all of their designated castings
- Completing all customer/part audits assigned to them, and seeing to the timely closure of associated Non-Conformance Reports (NCRs)
- Participating in daily and month end activities including product release and visual inspection
- Other duties as assigned by Management

Education Requirements:

Experience, Knowledge and Skills Required:

- Post-secondary education in a technical discipline
- 4 years of industry experience in Aerospace or Manufacturing is an asset
- Drawing interpretation including General Dimensioning & Tolerancing (GD&T)
- Strong verbal communication skills and excellent customer service abilities
- Ability to manage priorities
